AND UNDERGROUND SPACE
ASSOCIATION

Foundation for Education and Training on
Tunnelling and Underground Space Use

"Revving up Africa's market to a \$3.4 Trillion landmark, the African Union pushes for the implementation of a free trade agreement. Concurrently, Nigeria's 4th Tunnelling Conference aims to unlock the continent's underground space use.

The event spans over two days:

Day one- We'll be hosting a Training Session specifically tailored for professionals in Built Environment, and other industry professionals from Consultancy, Contractors , and Clients. This session is designed to enhance participants' understanding of critical project issues, from risk management to practical solutions and opportunities in the realm of Tunnelling and Underground work.

Day Two- is dedicated to a strategic symposium where key stakeholders, decision-makers, and both political and technical experts convene. The focus will be on deliberating the challenges and strategies related to harnessing underground spaces for the betterment of mobility, energy, industrialization, and overall life quality in Africa.

Wednesday 15th of November 2023
